

The Gaza Mono-Logues

The Gaza Mono-Logues project was initiated by Ashtar Theatre in Ramallah, with the purpose of bringing the voices of Gaza's children to the world. 33 children have undergone drama training and produced their stories of the effects of the Gaza war on their lives. These stories were performed theatrically on the 17th of October 2010 in Gaza, Ramallah, other cities in the West Bank and in more than 30 countries around the world. Oyoun Theatre of the Druze village of Majdal Shams, in the Golan Heights, participated in this project with eight monologues that were adopted for the theatre's youth group.
